Steel Trust To Go On Rack

(By United Press.)

Washington, June 6—It became known at the White House that the steel trust will be the next big trust to be attacked in the Supreme court. Prosecution will be begun this summer according to the word given out today. It is the belief of both the president and the attorney general that it can be driven over the same route as was the Standard Oil and the tobacco trusts.

Within a few days the president will have a report on the steel trust from the bureau of corporations which is decidedly against the steel company. The report is to be the basis of the contemplated prosecution of the trust and the president will turn over to the House Stanley probe committee after he has examined it.

(By Associated Press.)

New York, June 6—Prof. Larkin of Columbia University, reported to District Attorney Whitman that he was unable to discover any traces of poison in the internal organs of Mrs. Scheib whose body was found recently in a bath tub of an apartment she and her husband formerly occupied. Dickson Rapped

(By United Press.)

Columbus, Ohio, June 6—That Judge Dickson ignored the law in issuing two indictments against George R. Cox, was charged today by Assistant Prosecutor [illegible] in his argument in the court on the mandamus proceedings against Dickson to allow Cox an opportunity to select one judge before which to try Cox. In his argument he stated that the rights of the state and the prosecutor had been ignored by the judge, "so that, I expect, the freeing of Cox will be accomplished."

EVANS ON STAND, TELLS OF BRIBES

(By United Press.)

Columbus, June 6—In the grand jury's next partial report expected the latter part of the week, indictments may be returned against several bribe givers. This information was given out today but neither Prosecutor Turner nor Assistant Attorney General McGee would discuss the matter.

Representative Evans remained on the stand before the grand jury all morning and will resume his testimony again this afternoon. He had regained his composure today and seemed like a man who had lifted a load from his mind. Evans is under the constant scrutiny of Detective McGannon because of stories that parties damaged by his confession were anxious to have a talk with Evans. He is technically in custody under an indictment to which he has not been asked to plead.

It is said that Evans is revealing the full inside history of a corrupt ring in the legislature by which bills were held up or advanced.

Rumor has it that a prominent man, once mayor of an important Ohio city, has been deeply involved in the disclosures, but this cannot be verified officially.

Predictions are confidently made that several members of the legislature will be indicted as the result of Evans' testimony.

SENATE TRIES TO AMEND TREATY

(By Associated Press.)

Washington, June 6—Hopes of the Taft administration that the Senate finance committee would report the Canadian reciprocity bill unamended were dashed today when after a brief executive session of the committee, it was learned that the Root amendment of the paper and wood pulp section probably would be adopted in a modified form. Final consideration of the measure will be begun by the committee tomorrow.

The amendment offered by Senator Root provides that the paper and wood pulp section of the bill shall not be in force until the President is assured that such wood pulp paper and board being products of the United States are admitted into all provinces of Canada free of duty. It is contended by opponents of the amendment that it will endanger the measure.

EAR CHEWED OFF AS HE GOT BALL SCORE

(By United Press.)

Cincinnati, Ohio, June 6—Jos. Middendorf, 13, an enthusiastic baseball fan, today compromised a suit for $300 instituted by his parents against the owners of a horse which partly chewed off his ear by accepting $35. The boy's petition in part was as follows:

"The said Joseph Middendorf being a particular admirer of that certain baseball team known as the Cincinnati Reds, watched and looked for the score displayed for the benefit and behoof of all fans and bugs, as was said infant both; that as he watched the score of a certain game, then and there with great anguish and motive was the said infant aroused from his said condition by a certain horse by which one of his ears was almost severed from his head."

Jack Johnson Sails Today, Plastered With Diamonds

(By United Press.)

New York, June 6—Jack Johnson and his wife and a regular entourage sailed for London today.

Johnson was the one big show on board. Everybody wanted to know "Where is Johnson?" Jack wore a modest brown suit and relied upon a three-quarter inch diamond for ornamentation.

Johnson's wife was literally plastered with jewelry. Johnson had engaged the chief engineer's suite for the trip and it was filled with candy, flowers and presents of all kinds. He has made no request for an audience with King George but said: "I don't think that will be necessary. The king will probably want to see me and if he does I'll sure be on hands. I'll break a date any time to see a king."

Lil Artha is taking three trainers, a chauffeur and two autos with him. He also expects to see Monte Carlo. Monte Carlo can't help seeing him.

WAS ONLY 10 CENTS IN DEAD CASHIER'S SAFE

(By United Press.)

Plainfield, N. J., June 6—After a month's work, first by an expert at Tulsa, Okla., and later by experts in the factory here, a big steel safe, shipped here to be opened, as it was supposed to contain $25,000, was almost taken to pieces before the workers reached the strong box, and found ten cents in the shape of the common variety of dimes.

The cashier of a Tulsa bank formerly used the safe and when he committed suicide the bank president found the safe chained.

TWO SENATORS HOLD FATE OF SEN. LORIMER

Washington, June 6—A reopening of the Lorimer case has been ordered by the senate. The progressive Republicans and a fraction of the Democrats favored the designation of a committee composed entirely of newly elected senators. A major portion of the Democrats supported a resolution offered by Senator T. S. Martin directing the committee on privileges and elections to make the investigation as a whole. The Martin resolution was accepted by the regular Republicans and was adopted by a vote of 48 to 20. Eight members of the committee will be constituted a special committee to investigate the charges that Lorimer got his senate seat through bribery. This committee will be comprised as follows: Senators Dillingham, Sutherland, Kenyon and Gamble, Republicans, and Senators Johnstone, Kern, Lea and Fletcher, Democrats.

Senator Dillingham of Vermont, chairman of the committee on privileges and elections, and Senator Martin, who is the Democratic leader in the upper house, now hold the balance of power in determining the fate of the blond haired, blue eyed senator from Illinois. Dillingham can control the action of the committee, it is generally conceded, and Martin can influence enough Democratic votes for or against the adoption of the committee's report that will decide the reopened Lorimer case one way or the other.

ATTEMPT IS MADE ON MADERO'S LIFE

(By United Press.)

Agua Calientes, Mexico, June 6—A probable attempt on the life of Francisco Madero was frustrated here last night by cool heads of the committee. A banquet in Madero's honor had been planned and when Madero and a reception committee entered the banquet hall all the lights went out. Mrs. Madero and another committee arrived at that minute and a crowd quickly surrounded the Maderos.

Colonel Hey seized Madero and his wife and flipping them out a side door rushed them to an auto and then to Madero's private car which he did not leave until the train pulled out two hours later.

Despite this incident Madero expects a cordial welcome in Mexico City. The enthusiasm marking his progress south seems to be on the increase and he has received word that the Mexican government will pay for his private car.

HERE'S NEW PROFESSION, BURNING UP BUILDINGS

(By Associated Press.)

Chicago, June 6—Leopold Dreyfus of the firm of L. Dreyfus & Co., suicided today after having confessed, so the police say, that he was a party to burning his place of business in Market street last Saturday.

The confession, according to the police, may throw light on other fires in the down town district and is regarded as proof of the existence of an organized band of incendiaries who, for a price, offer to set fire to business houses.

According to a statement made by City Fire Attorney Sullivan the results of Dreyfuss' confession will be startling. It is said it can easily be shown that Dreyfuss not only profited by his own store but acted the confidential agent of the fire ring.

Whenever a prospective customer was secured, Dreyfus furnished a false certificate of sale purporting to show that he had sold a large bill of goods to the firm that was to burn out, which usually helped the burned out firm to collect large sums from the insurance companies.

Antaman thought the children were at home with their mother.

New Wool Bill Is In, Taft Is Criticised

(By Associated Press.)

Washington, June 6—Sharply criticising President Taft, the tariff board and the Republican party, a report on the Underwood wool bill was submitted to the House by the Democratic members of the Ways and Means Committee.

Quoting Taft's speech after the passage of the Payne-Aldrich bill in which he declared the "wooden schedule is indefensible" the report says:

"Had the President made these public admissions earlier while the tariff of 1909 was under consideration in Congress, his declarations would have been of real service to the people and enabled them to protest against betrayal of the public welfare to private greed."

BANKERS WORRY AT HARMON VETO

Columbus, June 6.—Governor Harmon and his advisers on taxation matters have thrown the banks of the State into a restless condition by his veto of the provision in the Hollinger bill which would have prevented the Tax Commission and its deputies from exercising inquisitorial powers as to bank deposits. From the entire State have come protests of bankers and prophecies of dire effects on the deposits of the State.

Bankers are almost unanimous in the opinion that the exercise of inquisitorial powers will mean the withdrawal of large deposits from Ohio banks and corresponding reduction of money for industrial purposes. This is the opinion of Julius Fleischmann, president of the Market National bank of Cincinnati, and fairly represents the views of Ohio bankers. Bad faith is charged to Governor Harmon by bankers for his veto of the Johnson bill defining bank deposits for the purpose of taxation and the provision of the Hollinger bill, which would have prevented the present situation.

New York, June 6.—Members of the Christian Science church were discussing to-day the statements of Mrs. Augusta E. "On the contrary, she will return and make a demonstration of her immortality." The memorial movement shows that her own followers believe that Mrs. Eddy is dead, Mrs. Stetson says, and this is in opposition to Mrs. Eddy's own teachings.

"Anybody Can Clean Silver This Way—"

"I'm sure"—says the LITTLE HOUSEWIFE. "There's no "fussing" with dirty, messy, injurious "pastes" or powders, no rubbing or "real work" of any kind. It's so much quicker, better and more satisfactory, in every way, than any other Method that you'll really enjoy using the

Silver-Clean Pan

This truly wonderful little home labor-saving device is very simple, yet extremely durable in construction. It quickly and thoroughly cleans any silverware of black and tarnish—without defacing, marring or scratching, or removing one particle of silver—and leaves it bright and new.

The SILVER-CLEAN PAN is a scientific combination of electro-chemical metals. Hot water, with ordinary baking soda and salt, is placed in the PAN—and the silver merely immersed and left for a few minutes—then taken out and wiped dry, when every trace of tarnish will have been removed—WITHOUT RUBBING OR SCOURING.

Thousands of housewives use the SILVER-CLEAN PAN—and what once was a dreaded task is now a pleasure. Hotels, clubs, restaurants and dining cars also enjoy the PAN. The household size, No. 1, single, with full simple directions, shipped on free trial, express prepaid, for only $1.75. If not found entirely satisfactory, we willingly pay return charges and refund the purchase price. Beware of imitations. None genuine without gold rim across the top. Other forms injure silverware. The "Silver-Clean" does not.

A Tailor Talk

Unseen flaws will creep into garments. In cutting and making a suit of clothes errors are possible. But the fault lies not in the making of that mistake but in the willingness to rectify it. That is where I have obtained success from the tailoring trade. Should an error creep into a garment I make it correct it. I keep faith with my customer. You will find me ready to do a little more, rather than a little less than the right thing.

C. & O. WANTS TO KNOW

Every effort is being made by the Chesapeake & Ohio to discover the source of this destruction of property and an edict has gone forth from headquarters at Richmond to the effect that here after a rigid investigation will be made of the cause of all minor wrecks and charging car inspectors, car foremen and track foremen to report all damage that comes to their notice.

This matter will be taken up with all trainmen and enginemen and hereafter every man responsible for a car being damaged, must account for it. Every case will be thoroughly gone into and every party responsible will be disciplined where discipline is necessary.

All inspectors and foremen must make a thorough report and check back with the conductors to make sure that nothing has been overlooked.

Much of the damage is done at the mines while cars are being loaded by mine employes, who frequently allow a loaded car to drop down from the tipple against another loaded car, thereby seriously straining both cars. This will be thoroughly gone into with the mine operators and every effort made to reduce this excessive expense.

Dish Washing Made Easy.

This is a factor in home life which is most important, as dishes frequently permit of the accumulation of dirt and grease which are health destroyers if not properly removed.

The snow white soap of Hewitt's Easy Task soap enters every crevice and is a thorough cleanser, providing the sweet, wholesome and clean effect to the china and glassware which gives a charm and zest to the meal.

Hewitt's Easy Task soap accomplishes all this because it does its own work and leaves no traces behind. It is clean, pure and effective, and costs no more than the "cheap" kinds.

THIN BLOOD AND RHEUMATISM

Whatever Builds up the Blood During an Attack Will Cure the Disease.

This Ohio Woman Tried the Tonic Treatment After Being Crippled by Rheumatism and Was Cured.

There is a great deal still to be learned about the cause of rheumatism but one fact now stands out prominently—the rapid thinning of the blood from the beginning of the attack. This may be one of the causes of the disease or one of its effects but it is known that anything which will build up the blood during an attack of rheumatism will cure the trouble. Such a remedy either attacks the cause of the rheumatism or counteracts its harmful effects and enables the system to throw it off. Dr. Williams' Pink Pills owe their curative effect to this action.

The treatment for rheumatism is well illustrated in the case of Mrs. E. G. Alspach, whose address is R. F. D. No. 1, Canatta, Ohio. She says:

"I suffered for nine months from rheumatism in my right hand and arm and think it was partly caused by an injury. My hand was so crippled that I could not use it at all. I had a dull heavy pain in my right arm all the time and was in great misery. When I got up in the morning my arm would be numb and the pain would be so great that I would have to cry. There were sharp, shooting pains through my arm. I became very nervous and could scarcely dress myself.

"I did not see that the doctor's treatment was helping me and quit taking it. Through a friend I decided to try Dr. Williams' Pink Pills and I noticed in a few days that I was being benefited. I took the pills until I recovered the use of my hand and the rheumatism has never bothered me since."

Dr. Williams' Pink Pills have cured anaemia, chlorosis, sciatica, nervousness, after effects of the grip and fevers, and neuralgia, owing to their blood-building property. Send today for our free booklet, "Diseases of the Blood."

Dr. Williams' Pink Pills are sold by all druggists, or will be sent, post paid, on receipt of price, 50 cents per box; six boxes for $2.50, by the Dr. Williams Medicine Co., Schenectady, N. Y.

Drowned In Scioto

Chillicothe, Ohio, June 6—Geo. W. Donavant, an N. & W. lineman, whose home is in Virginia, was drowned in the Scioto river near Morgan Wood's store at Pride, Ohio, on Sunday evening.

Donavant was in swimming with some fellow workmen when he got into a hole, which was over his height in depth. He became frightened, lost self control, started struggling and finally sank.

The sad part about the whole matter was revealed in Coroner Franklin's inquest this morning when it was learned that Donavant had gone to his death while trying to rescue P. Nelson, his foreman. Nieces had been seized with the cramps, but subsequently escaped.

Donavant was 21 years of age, unmarried and leaves a father and mother in Henry county, Va.

State House Talk

Columbus, Ohio, June 6.—If the legislature had passed Senator Tod's bribery bill a year ago instead of at this session, Representative Owen J. Evans, of Stark county, who entered a plea of guilty to bribery Monday, could not have escaped a penitentiary sentence. Senator Tod tried hard to get the legislature to put through his bill in 1910, but for reasons which certainly seem indefensible, he was unable to do so. At this session, however, he managed to get the bill passed. It provides that all persons convicted of bribery shall go to the penitentiary. Evans' offense having been committed prior to the enactment of the Tod law, he was sentenced under the old law.

Having been convicted of a felony, Evans not only forfeits his seat in the general assembly but loses his right to hereafter hold any appointive or elective office, according to Attorney General Hogan's interpretation of the law. Evans, as is known, was let off with a fine of $500 upon pleading guilty to accepting a bribe of $100 from L. C. Miller, an Akron salary loan man, upon his agreeing to turn state's evidence and make a full confession to the grand jury of everything he knows about crooked work in the general assembly. It is thought probable that the information he will disclose will enable the state to secure convictions otherwise impossible. Evans and Dr. Nye, who was acquitted of soliciting a bribe from State Printer Crawford, were the two most prominent members of the house steering committee, which is clothed with power to decide which bills should and should not be taken up and passed. There are several indictments still pending against Nye. It seems certain now, in the light of the Evans confession, that Nye will be tried again.

Considerable sympathy is being expressed for Evans, who was generally regarded as a clean man. He voted right on most good bills and had the reputation of avoiding bad company. He was close to Senator Pomerene and was one of his most active lieutenants in securing his election. Evans made the speech placing Pomerene in nomination. It was notable for its lofty sentiment. In it, Evans made a plea for the people to put honest men in office. Because he intends to tell all he knows, it is probable that the two other indictments against Evans will not be pushed. In one, he is charged with soliciting a bribe from J. C. Sharer, of Alliance, a beer agency man, and in the other he is charged with soliciting a bribe from J. S. Weiss, secretary and treasurer of the Stark-Tuscarawas Brewing Company. Evans broke down and wept bitterly when he entered his plea of guilty.

The conviction of Evans has caused a panic not only among the other indicted legislators who have not yet been tried, but also among members who have not yet been indicted. The senate "whitewash" committee did its best to ridicule the press declaring there was no foundation for the bribery stories printed in the daily stories. The members of the "whitewash" committee, in the light of developments of the past few days, are conspicuously silent. They are not now denouncing the newspaper men and calling them falsifiers. Instead of making the newspapers ridiculous, the "whitewash" committee has made itself ridiculous.

The grand jury reassembled at 10 o'clock this morning to pry further into the legislative bribery. Representative Evans was before this body most of yesterday. When adjournment was taken late in the afternoon, the statement was made that the grand jury was not ready to make any report.

Joseph Believes He Will Clear His Son

That his son now awaiting trial for slaying his brother will soon be released from the Lewis county jail, was the word brought here by Frank Joseph of Glenn, Ky., Tuesday.

Mr. Joseph came here to have his wounded arm treated, he too having figured in the recent tragedy. It is far from healed and it will be some time before he can regain its use a number of shot still being imbedded in the flesh.

Mr. Joseph said the prosecuting attorney of Lewis county had promised him to write to the judge and recommend Spurgeon Joseph's release on his own recognizance. Otherwise he will have to remain in jail until September when the case comes to trial.

The father expects his own testimony to clear Spurgeon. He says the dead son, Clarence, had started the trouble and that he fully expected to kill Spurgeon was evidenced from the fact that he loaded his revolver while still sober. Once he got to drinking and acted like one crazy.

Local acquaintance of the man recall a fight he had in a Portsmouth saloon a few years ago when without the slightest provocation he assaulted one of his best friends with a beer glass and with whom an instant before he had been chatting pleasantly.

OBITUARY

Collins Funeral.

The funeral of Raymond Collins, the six year old son of Mr. and Mrs. George Collins, of 131 East Tenth street, took place on Tuesday morning at 10 o'clock from the home and interment was made in Greenlawn. The child had been ill several months with stomach trouble. The Rev. Mr. Maier conducted the last rites.

IN MEMORIAM.

In memory of our schoolmate:

Our hearts are heavy and sore,
We feel lonely and sad today;
For death has entered our door,
And taken our comrade away.

Your cheery voice no more we'll hear,
Your merry smile no more we'll see;
We sadly miss thee, schoolmate dear
And deeply mourn for thee.

It was hard to break the tender tie
That bound our hearts together;
'Twas hard, so hard to say goodbye,
And know our band was severed.

Now our room will seem cold and lonely,
The vacant seat will be sad to see;
When the teacher calls "Ralph Bauer,"
No answer will there be.

God indeed has one more angel,
In His shining band;
He has one more voice to answer
To His roll-call in the Promised Land.

Farewell to thee dear schoolmate,
Thy loss we sadly feel;
But our kind and loving Savior,
Can all our sorrows heal.

—Tribute from a Schoolmate.

The Value of an Hour

E. H. Harriman in speaking of the value of time, once said: "The average life of man being so short, he must necessarily weigh time and utilize every hour by the addition and subtraction of minutes, and each hour is supposed to contain a certain amount of incidents, which must produce to represent a certain amount of money in proportion to the value of his time. He must then put that money to work where its earning capacity is the greatest." N. & W.'S WORKMEN ARE ASKING CONCESSIONS

Roanoke, Va., June 6.—The committee appointed several weeks ago by the Federated Trades in the employ of the Norfolk & Western at a meeting held in this city are here again and will go into a conference with Superintendent W. H. Lewis and other officials of the N. & W. railroad with a view of adjusting the question of a satisfactory wage scale and other matters of existing difference between the officials of the road and the men who perform the work in the various departments.

Vice President Thomas Nolan, of Portsmouth, and Mr. B. P. Lewis, of Memphis, Tenn., a high officer in the Federated Trades, are here and will meet with the general committee in an advisory capacity.

What the outcome may be cannot be predicted with any certainty. It is true that the question of a strike has been talked for some time in the event the men interested are not granted some concessions.

The attitude of the Norfolk & Western will probably be not to increase wages at this time. The report for the month of April shows a considerable decrease over last year of the earnings of the road, and it is said that this will have a different effect on the officials so far as increasing the expense account is concerned.

The crafts involved are nine in number and include all the operating forces outside of the transportation organizations. Among them are the machinists, boiler makers, blacksmiths, wood workers, car builders, repair forces, car inspectors and painters.

The meeting may be a harmonious one and may end today, or the meeting may last two or three days.

General Chairman Humphreys was asked for a statement this morning. He said that there was nothing to give out to the public today other than the meeting was being held. He thought it highly possible that they would be able to give out a full statement soon.

Ohio Crop Report

The official report of the Ohio Department of Agriculture on crops and live stock June 1, 1911, is as follows:

The report reference to crops and stock is compiled from returns received from official correspondents of the department.

Wheat—Prospect compared with normal yield, 88 per cent.

Oats—Prospect compared with normal yield, 76 per cent.

Rye—Prospect compared with normal yield, 85 per cent.

Winter Barley—Prospect compared with normal yield, 86 per cent.

Spring Barley—Prospect compared with normal yield, 84 per cent.

Clover—Prospect compared with normal yield, 70 per cent.

Timothy — Prospect compared with normal yield, 68 per cent.; damaged by grub worm, 3 per cent.

Hogs—Fed for summer markets, 55 per cent.; condition compared with an average, 94 per cent.

Spring Pigs—Number saved with an average, 99 per cent.

Sheep—Condition compared with an average, 95 per cent.

Lambs—Number saved compared with an average, 93 per cent.

Fruit—Prospect compared with normal yield.

Wheat shows the serious effect of the long continued drouth, and the harvest prospect as now estimated by the official correspondents of this department is most discouraging. Based upon 15 bushels per acre as a normal yield, represented in the report by 100 per cent, correspondents estimate that in comparison with a normal yield the production will be but 88 per cent. The estimated area seeded to wheat last fall was 2,014,180 acres. From present prospects this should produce approximately 26,587,176 bushels. On the corresponding date one year ago the estimated production was reported as 21,008,368 bushels. When the township assessors' reports are returned, no doubt they will show an increase in the estimated area now reported, but not enough to have any material effect on the state's production.

Oats prospects are reported at 76 per cent. compared with a normal production per acre, 30 bushels per acre being normal, represented by 100 per cent in this report. The area seeded to oats for the present harvest is estimated at 1,357,224 acres. From the prospect now reported this should produce approximately 30,944,707 bushels. On the corresponding date last year the harvest production was estimated at 37,044,690 bushels. The oats crop generally is in poor condition, owing to drouth following seeding.

Fruit prospects are estimated at 88 per cent. compared with a normal yield.

Finds His Old Horse

Fire Chief John Lynn has discovered that "Old Lucy," a faithful horse which he bought 12 years ago for the gas company, is still in harness, though at the time the nag was 17 years old. Lynn recognized the animal on the streets, though he had not seen it in years.

The animal, which is probably the oldest piece of horse flesh in Portsmouth, is now owned and doing good service for Lew Kern, the grocer.

Barbers Union To Have Warm Session

The Journeymen Barbers' meeting Wednesday night promises to be one of the most interesting held in years.

It is expected that action will be taken at this meeting against those barbers who have refused to adopt the new schedule of prices. They are R. N. Russell, Chris Wagner and Patterson & Wheeler. Their cards will most likely be ordered removed and fines imposed. The shop owners mentioned say they are not worrying over any action that might be taken, they taking the stand that the union has no legal right to compell the change in prices. They claim two scales of prices are in vogue in many other cities.

MISTAKE ABOUT MR. HARMON

McDermott, O., June 6, '11

Editor of The Daily Times.

Dear Sir:—In your valuable paper this morning I see an article which I feel should be corrected. My Uncle, Mr. Geo. H. Harmon, who died so suddenly on last Friday, I think was done an injustice in this way. It was not generally known he was a married man. He leaves a wife, Mrs. Sarah Harmon, of Bellefonte, Pa. who he had been separated from for nearly 15 years, and I do not think a divorce was mentioned, if it was it was never gotten and if it had not he she is in very poor health, she would have been to the funeral, if she could have gotten here. We think that the report that he soon should have been married should be corrected, as it could not be.

Through love for my uncle, I ask this correction.

Respectfully,
MRS. MARY MERSHION,
McDermott, O.

WANTS SUIT DISMISSED

In an answer filed Tuesday to the original petition in the case of A. P. Wilson vs. Henry Reid, asking that the partnership in the pile driving business be dissolved and a receiver be appointed to receive the proceeds, the defendant admits he put into the business, received $2,700 for work done, and admits he refused to recognize plaintiff as a partner.

The defense denies that defendant and plaintiff are partners and admits he has possession of the pile driving boat and refuses to let the plaintiff have anything to do with it on the grounds he has paid and discharged all indebtedness and asks for dismissal of the suit.

Baby's Voice

Every woman's heart responds to the charm and sweetness of a baby's voice, because nature intended her for motherhood. But even the loving nature of a mother shrinks from the ordeal because such a time is regarded as a period of suffering and danger. Women who use Mother's Friend are saved much discomfort and suffering, and their systems, being thoroughly prepared by this great remedy, are in a healthy condition to meet the time with the least possible suffering and danger. Mother's Friend is recommended only for the relief and comfort of expectant mothers; it is in no sense a remedy for various ills, but its many years of success, and the thousands of endorsements received from women who have used it are a guarantee of the benefit to be derived from its use. This remedy does not accomplish wonders but simply assists nature to perfect its work. Mother's Friend allays nausea, prevents caking of the breasts, and in every way contributes to strong, healthy motherhood. Mother's Friend is sold at drug stores. CHAMPS LOST MONDAY TO PRODIGALS BY SCORE OF 5 TO 3

EDITED BY F. W. SHERIDAN | Baseball | **BEST SPORT PAGE IN OHIO** | Boxing | DOINGS OF AMATEURS

Champs Not Hitting, Therein Trouble Lies

Whoa, there, ye Champs!
What the hotel be the matter anyway?
What's that—you ain't hittin'?

Guess that is the correct dope—you can't win without you hit, and you haven't been doing much slugging of late.

They have lost four straights—the first time that has happened this season, and by all the powers that be, may it be the only time that thing happens.

Down here, the fans have not lost confidence—not by a whole lot. They realize that the boys are in the country of the common enemy, and that every club they meet are putting forth their best efforts to put a crimp in their record. They are going up against the best pitchers and while they are holding their opponents down to small scores, yet of late victories have been few and far between.

Yesterday they dropped one to Springfield 5 to 3—good game, doubtless but blame the good part—its the games we want minus those adjectives.

Since the team went away they have done nobly, winning five and losing eight. They yet have a chance to come home with even a divide, an accomplishment that looked like a cinch before they hit Marion. Here they dropped two and had one stolen by a two legged fellow they call Regan, or Ragon or Rogan. Then they hopped over to Springfield where they clashed yesterday, and the news came waffing over the wires that the game had gone glimmering.

That's all right, Pete. If you can't win, make the other fellows throw their clutch into high gear in order to win—make 'em hustle all the time. Down here, we are waiting patiently on your return, and with that long stretch of 22 games on our own ground—well, send the fellow around who wants to bet that the Champs will not be so far in the lead by the time those games are over that you can't see 'em for the dust, a la Billy Sunday.

A BONE-HEAD WHAT IS IT

When is a bone head not a bonehead? Submit that question to the fans and then to a manager of a team and you will have two entirely different answers.

The fan will say that any play that goes through is successful—the manager will say that that answer is only a half truth.

The fan will declare that no matter how insane a play looks, it's results that count and a player should never be panned for pulling off a skull play if it pans out correctly.

For instance. Let us say that the score is a tie, and the first batter up reaches second base on a short afield. Then he steals third, and finally steals home, winning the game. Has he pulled off a smart play?

Yes, he has done that very thing, despite the fact that he got away with it, and any manager who would not give that player a heart to heart talk and then for good measure stick on a heavy fine would not have enough sense to set eggs.

But you say, the play went through and won the game. That's true, my dear, but where it goes through successfully one time in forty, it fails the other thirty-nine times.

The manager, unless it happened to be Clark Griffith, would have the man sacrificed to third, where he could score on an out, a passed ball, an error or a hit. That would be Manager Childs' way of doing things, and Pete most generally does the right thing in the right place.

Right here in Portsmouth, the writer saw O. C. Collis steal home in the ninth inning with none out and by so doing he won the game. The fans yelled themselves hoarse and passed Collis all sorts of compliments. But the fact remained that it was not good baseball, not by a whole lot. Had Collis been caught at the plate, you would have been hearing of that play to this day, and the people would have roasted him where they praised him.

So you see, a bonehead play is a bonehead play no matter if it does go through successful.

High Hope At Lima

Lima, O., June 6.—The season is yet young and with the addition of the new talent here there is no reason why the Lima squad cannot be up with the leaders in a few weeks. Inspection shows the locals have the best pitching staff in the league, Osborne, Schanz and Mink are a trio that cannot be beaten if the team hits behind them. Twice Dobbs and Cassis can be depended upon to bring home their share of victories with a hitting team and a field that will not go up into the air frequently. Keifer will also prove dangerous to Ohio State batters if he rounds into shape. He is now in the hospital with blood poisoning.

CAMPAIGN WAS BEGUN FOR PURE MILK SUPPLY BY BOARD OF HEALTH

The board of health held an extended session Monday night at which a campaign was launched for a better and purer milk supply for Portsmouth.

The matter is of vital importance to every citizen of this city inasmuch as the question affects one of the greatest articles of food. Especially are the children concerned.

The events leading up to agitation of the coming crusade was brought about through a report on the manner of conducting dairies and handling milk at dairy farms about Portsmouth, made by the dairy and milk committee of the board composed of Messrs. Jacob Findeis, Dr. Samuel P. Foster and John Linck and the city physician and health officer Dr. McKerrihan. They recently inspected the dairies.

The report of the committee in part follows:

"Your committee has inspected 52 dairies and 528 cows, producing 964 gallons of milk.

"The majority of the cows, at least four-fifths, were in a healthy physical condition—from outward appearances. The stables and surroundings in the majority of instances were in bad, unsanitary condition and should be condemned. The mode and manner of obtaining and handling the milk is also bad."

While the board has yet much to accomplish it has made a good start in the preliminary stages of the great educational fight to be waged in an effort to solve the pure milk problem here.

"But few people realize the dangers coming from the unsanitary milk now being sold in this city" stated a member of the inspection committee "for at only one dairy out of the 52 visited did we find modern milk pails used and precautions taken against unsanitation."

It is an accepted fact throughout the country that tests show from 12 to 20 per cent. of all milch cows are affected with tubercular trouble and that the disease spreads from the animal to human through drinking the milk.

"The possibility of tuberculosis among the dairy cows from which the milk supply of Portsmouth is derived, is great on account of the existing unsanitary conditions" said a member of the board of health Monday night.

The need of a milk inspector is great and council is to be asked to appropriate the office and appropriate funds to pay the salary of same. It is necessary that the inspector be an expert and it is more than likely that the state board of health will be asked to send one of its experts here. The city was instructed to communicate with the state board with a view in view.

After many motions had been offered and discussed at length it was decided that in order to get the matter of drafting a set of rules governing the dairies, the sale and sale of milk, in a proper form, to take an adjournment until Thursday evening.

The committee will draft the ordinance embracing the specific details and requirements of the board that all dairymen must provide better and more sanitary quarters for their animals, the use of modern milk pails, the cows be washed, thoroughly washed their hands as well as udders of the animals. The milk to be placed in receptacles immediately after being drawn from the cow and delivered within 12 hours at a temperature not more than 55 degrees Fahrenheit.

The first demands of the board will be the elementary ones as it is realized that it would be next to impossible to secure all the needed reforms at one time.

The dairymen have all shown a disposition to assist in the movement and there remains only one thing to do—and that is to put the plan mapped out into effect. The new requirements will be strict and means that those dairymen failing to conform to them will have their license revoked.

Solicitor Thomas reported that the Brokaw pond nuisance had been corrected but it afterward developed that the owner had simply knocked a hole in the dam allowing the water to run out. Recent rains filled the place up again with water making the same objectionable features as before.

Complaints were made about nuisances in different parts of the city. The Biggs House toilet was reported to be in a very unsanitary condition, a bad sewer near the Haley property at Gallia and Clay streets, another near the N. & W. depot, alley back of Grand Opera House and others. All were ordered abated with the ultimatum that prosecutions will follow any who disregard the notice.

Mayor Searey came in late and extended an invitation to the members of the board to accompany the city officials including the members of council and also the board of trade on an inspection tour of the city. On the promise of furnishing automobiles the offer was accepted and the tour will be made Thursday afternoon, starting at two o'clock from the city building. The tour is being made for the purpose of making a general inspection of the city and should be beneficial especially from a sanitary standpoint. It would be well for the citizens in general to make a general clearing up in advance of the trip of the city fathers.

ALL WANT TO GET SOME OF THE CHERRIES

Billy Maier is the envy of many of his North End neighbors. And it is all because Billy seems well supplied with cherries. Billy resides in the Joe Servey property on North Findlay street and has two trees that are loaded down with fine big cherries. No less than twenty-five different persons have wanted to buy cherries but he has refused, declaring the supply is for the exclusive use of the Maier family.

PART OF THORN LEFT IN FOOT

Police Clerk Frank Beaumont is nursing a very sore left foot and fears complications. Frank visited the rural districts of the West Side Sunday, and while walking up Hyson Run, stepped on a big thorn. It went clear through the side of his shoe and penetrated a half inch or more into his foot. When pulled out the point of the thorn was broken off.

Va., was suddenly stricken with appendicitis while visiting at the home of her uncle and aunt, Mr. and Mrs. Joseph Dunn, of Highland avenue, Saturday. She was rushed to Hempstead hospital and there underwent a surgical operation Sunday morning at 2 o'clock. It was performed by Dr. Whittaker, of Cincinnati. Her parents were at her bedside during the operation, from which she rallied nicely. Her condition is reported very favorable.

A Mate And A Deckhand

Squire Sol Mershon is having a great laugh at the expense of Hayman Odle, a young man employed on the magistrate's Odle Creek farm. Hayman and his sweetheart were planning a pleasure trip and he made a special trip to town after a new pair of shoes. Through some mistake Hayman got two different style shoes, one a lace and the other a button shoe. He did not make the discovery until an hour or so before the time set for beginning the trip. This was spelled off until Hayman succeeds in getting a pair of shoes that are mates.

IRONTON WAS VISITED BY BIG STORM SUNDAY

Ironton was visited by a great storm Sunday evening and much damage was done, the most serious of which was:

Belfont furnace was so badly damaged that it had to shut down several days to make repairs.

Roof of Mrs. Wheeler's home, on Jefferson street, was blown off.

Barn of M. J. Cullen's on Cemetery Lane, partly demolished and a cow killed by debris.

Chimney of Wm. Stowers home was blown down.

Trolley service knocked out for three hours.

Roof was torn off and side blown out of the lumber shed at Fearon's saw mill and 20,000 feet of lumber scattered.

Many trees uprooted and countless awnings damaged.

FIRE MYSTERY UNSOLVED

Mrs. Ed Covert in whose kitchen the fire broke out was subjected to a rigid examination but was unable to supply the official with any tangible information. She was permitted to enter the house again for the purpose of removing her belongings.

She will vacate her apartments at once. Mr. Donovan and Fire Chief John Lynn may resume the investigation within a few days.

LABOR COUNCIL HAS MEETING

Only routine matters claimed the attention of the Central Labor Council at its meeting Monday night.

The new barbers' price scale was discussed informally only because some delegates preferred not to make any report until after the regular meeting of the journeymen barbers Wednesday night. The action of the barbers in advancing prices, however, was endorsed by the central body at a previous meeting.

Took Depositions.

WHAT I WENT THROUGH

Before taking Lydia E. Pinkham's Vegetable Compound.

Natick, Mass.—"I cannot express what I went through during the change of life before I tried Lydia E. Pinkham's Vegetable Compound. I was in such a nervous condition I could not keep still. My limbs were cold. I had creepy sensations, and I could not sleep nights. I was finally told by two physicians that I also had a tumor. I read one day of the wonderful cures made by Lydia E. Pinkham's Vegetable Compound and decided to try it, and it has made me a well woman. My neighbors and friends declare it had worked a miracle for me. Lydia E. Pinkham's Vegetable Compound is worth its weight in gold for women during this period of life. If it will help others you may publish my letter."—Mrs. NATHAN B. GREATON, 31 N. Main Street, Natick, Mass.

The Change of Life is the most critical period of a woman's existence. Women everywhere should remember that there is no other remedy known to medicine that will so successfully carry women through this trying period as Lydia E. Pinkham's Vegetable Compound.

If you would like special advice about your case write a confidential letter to Mrs. Pinkham, at Lynn, Mass. Her advice is free, and always helpful.

Ashland Crowd Sore On C. & O.

The Ashland Daily Independent says that it was an angry bunch of excursionists that rolled into Ashland from Cincinnati at 2:30 Monday morning, on train No. 8 over the C. & O. Some two hours behind time. The train was due to leave the Union depot at 8:45, never pulled under the train shed until 12:30 o'clock, and all that time the crowd waited, suffering in the heat, and fearing to leave the gate, lest they miss the train. No explanation was forthcoming from the officials as to the cause of the inexcusable delay, and there was such great dissatisfaction that it's a cinch the C. & O.'s excursion business has been badly hurt in Maysville, Portsmouth, Ashland, Catlettsburg and Huntington by last night's piece of carelessness. Then, too, when you asked the gateman for information, you were subject to insult.

MISSED ONE TRAIN BUT CAUGHT NEXT

John Grimmel has returned to Columbus after a pleasant visit with relatives and friends. John missed the first north bound N. & W. train Monday, it pulling out just as he rounded Tenth and Waller streets.

FREE SAMPLE CURED OLD PERSON'S BOWEL TROUBLE

One of the most remarkable proofs of the unusual laxative merit contained in Dr. Caldwell's Syrup Pepsin is that it is effective not only in people in the prime of life, but at the extremes of age. As many letters are received from mothers regarding the cures of children as from men and women of sixty, seventy and eighty years of age. It must be truly a wonderful laxative.

In the cure of constipation and bowel trouble in old people it has no equal. It corrects the constipation, disrels the headache, biliousness, dizziness after eating, etc. People advancing in years should see to it that their bowels move freely, and if they do not to take Dr. Caldwell's Syrup Pepsin. You can prolong your life by healthy bowel action. Clogged bowels invite disease. Women about to pass the constipated period cannot do better than use Syrup Pepsin several times a week until the system has settled to its future condition.

Among the strongest supporters of Dr. Caldwell's Syrup Pepsin are Mr. W. G. Zorn of New Decatur, Ala., and Mr. George S. Spaulding of the National Soldiers Home, Kansas, both elderly men. The regular size bottles can be bought of all druggists at fifty cents and one dollar, but a free sample bottle can be had by sending your address to the Dr. Caldwell.

Dr. Caldwell does not feel that the purchase of his remedy calls for publication. He has specialized in stomach, liver and bowel diseases for over forty years and will be pleased to give any reader any advice on the subject free of charge. All are welcome to write him. Whether for the medical advice or the free sample address Dr. W. B. Caldwell, 501 Caldwell Building, Monticello, Ill.

Well, work on that sky-scraper is under way.

Monday's rain came late, but it was none the less welcome for that.

Two elections and one primary for the fall months will give us all the politics we want.

Many new homes are going up right now in Portsmouth and 1911 will make a record for itself.

Madero is on his weaving way to Mexico, and Diaz is in full flight for Spain. The king is dead, long live the king.

You never can tell about a change. The Chillicothe Gazette is hotly in favor of the direct nomination of state senators.

Yes, that viaduct is going to be built sometime, just as soon as four big bodies can come to an equable agreement as to what should be done.

The state has got a couple of alleged grafters to take the immunity bath, but somehow they do not seem to know as much as they thought to, or at least they will not talk it for publication.

President Gary, of the Steel trust, says the government must come to actual supervision and control of vast business organization and he himself favors it so doing. If that be true, why do the big interests throw a fit every time it is proposed the government do this very thing?

LAST CHANCE GONE FOR BASHFUL BRIDES

On Wednesday the new law requiring both the bride and groom to appear in person before the probate court in order to secure a marriage license, takes effect.

He has also landed the contract for a similar job at John Wente's proposed new building, corner of Findlay and Gallia streets.

Thumps Salesman, Has To Pay For It

Thomas H. Halwood, a scales salesman, received a thumping at the hands of Joseph Odle, a Duck Run merchant, who became angered over the salesman persisting in selling him a machine.

The trouble occurred late Monday and not only was Halwood kicked bodily out of the store, but his sample scale was thrown into the road and smashed.

Coming to town, Halwood swore out a warrant for Odle and Sheriff Eckhart went out and brought the merchant in Tuesday.

The parties effected a compromise before the case came to trial in Squire Byron's court by the defendant paying for the wrecked scale and costs in the case.

Odle has been in court on a similar charge before.

Retail Grocers Will Close For Half Day

About twenty retail grocers attended a called meeting at Al. Staiger's grocery, corner of Ninth and Offnere streets, Monday evening, to take suitable action with reference to the closing of their places of business on Thursday afternoons from now until the first of October.

Frank Watkins was chosen chairman of the meeting, and Al. Staiger was named as secretary. It was the unanimous opinion of every person present that the half holiday plan should be inaugurated at once, and the members decided they would observe the plan on Thursday, June 8. The stores will be closed at noon and will not be opened for business under any circumstances until Friday morning. The housewives are asked to govern themselves accordingly.

A committee consisting of Mack Fowler, Al. Staiger and Frank Watkins was named to circulate a petition for the purpose of securing the consent of every grocer to observe the half holiday plan.

The committee met at Mr. Staiger's store Tuesday afternoon and then left on a tour of the city. It was reported that they have not as yet met with a single refusal.

It is also the plan of the association to try to interest all retail merchants of the city in the Thursday half holiday plan. At present the dry goods stores are closing at noon on Friday, and the committee named by the grocers interviewed William Kurz, president of the Merchants' Retail Association Tuesday afternoon and laid their plan before him. He will bring it up before the association at the first meeting.

The grocers intend to go even further, and see if it cannot be arranged so the factories will observe Thursday instead of Saturday afternoons.

Pratt further says that he went around all day on Decoration day with his umbrella under his arm, just because Corriell had predicted rain. The next time Corriell says the heavens are going to weep, Pratt declares he is going to advertise an all day picnic, for he says a duck he says that the sun will shine forth in all his splendor and majesty.

G. A. R. Resolutions

Bailey Post G. A. R. has adopted the following resolutions of gratitude:

"We hereby take this method of extending our sincere thanks to every one in Portsmouth who contributed toward making Memorial Sunday and Memorial Day, May 30th, 1911, the grandest and most successful that was ever witnessed in this city on any other previous occasion of the kind. We especially thank the following:

"Drs. James N. Eason, John W. Dillon and W. C. Hartinger for their patriotic services at the Bigelow M. E. church Sunday, May 28. The Rev. John Weaver, organist and choir for the stirring and patriotic music which they furnished. The Rev. T. H. McAfee for his eloquent address at the First Baptist church, Sunday evening, May 28th the inspiring music by the church choir and for the kind and courteous treatment by the members of his congregation.

"To Professor Frank Appel, the principals, teachers and pupils of the public schools for the unprecedented number of school children in the parade on Memorial Day. We are glad to say that the teachers and school children who so tenderly decorated the graves of our comrades with the beautiful and fragrant blossoms of spring time, showed a tribute of love and honor for our comrades living as well as those who sleep beneath the passionless mound.

"May they annually practice this beautiful and patriotic custom in the years to come and especially after the last soldier of the Civil War has encamped beyond the river. To Capt. J. C. Drown, his officers and Company K 7th O. N. G., that splendid body of young and efficient men. Who is now a part of the United States Army for their sincere and valuable assistance. By their presence they not only honored us, but they glorified and dignified themselves, the great State of Ohio, and the United States of America. To the Herms Floral Company for their donation of beautiful owers with which they filled the urns around the fountain in the soldiers' circle, surrounding which our comrades are sweetly sleeping, awaiting the final Eveille of eternity.

"To Mr. Chas. Crain, superintendent of the cemetery for the convenient arrangement he made for our comfort and the comfort of the public. To Dr. Charles S. Robertson for his attractive, instructive and patriotic address at the cemetery, which was highly appreciated by all who had the good fortune to hear him.

"We graciously thank the press of our city for their impressive articles on the observance of Memorial Day, and for gratuitously publishing our matter. Through the medium of the newspapers we were enabled to reach the people, thereby making our success doubly sure. Off goes our hats to the gentlemen of the press.

"If we have omitted any deserving ones we kindly ask you to consider yourself included in the above enumeration.

Terrific Hail Storm North of Portsmouth

A terrific hail storm passed over the country lying between Wakefield and Chillicothe late Monday night, doing all sorts of damage to growing vegetation. According to Mike Schilder, wholesale fruit dealer of Chillicothe, there is not a leaf left on the trees in his city. He states that in all his life he never saw larger hail stones, some of them being as large as hen eggs.

Gardens were ruined and the ground is covered with leaves. No fatalities are reported, despite the size of the hail stones. An odd thing about the matter is that no wind accompanied the storm.

Makes Threats And Vanzant Is Jailed

A sensation was sprung at the court house just before noon Tuesday, when Clarence Vanzant, an optician, was arrested by Sheriff Eckhart on a writ of attachment to show cause why he should not be punished for contempt of court.

The trouble leading up to Vanzant's arrest occurred Monday in the corridor just outside the court room when the optician answered over a question propounded to him on cross examination by Attorney Horace Small during the hearing of the Vanzant-Carr damage suit, [illegible] the attorney with violence.

The defendant on being arraigned entered a plea of guilty and his counsel, Attorney Funk, asked the mercy of the court.

Judge Blair in passing sentence commented on the action of the defendant and stated it was the duty of the officers to protect counsel against such things, and the defendant was sentenced to ten days in jail and to pay the costs.

The course of the prosecuting attorney being marked Attorney A. H. Parker, appointed by the court, prosecuted for the state.

Vanzant, it will be remembered, was [illegible] charge and [illegible] subsequently [illegible] by the court.

SEE FOUNTAIN DESTROYED

Children returning home from the Campbell avenue schools Tuesday noon deliberately put the drinking fountain on Lawson street out of order, by wrecking the mechanism of the fountain. Bystanders tried their best to induce the children to leave the fountain alone, but they persisted in their efforts until they broke the top and water shot out in a five foot stream.

The names of several of the young men were secured by citizens, and these will be turned over to the police. The children claimed that the fountain was erected at the expense of the school children and that they had a perfect right to destroy it. It may prove costly to them.
